

FRY FIRE DISTRICT

"Always Willing Always Ready"

Job Announcement

Position: Fire Apparatus Technician

Recruiting Period: Applications will be accepted beginning April 20, 2017 and close May 5, 2017 @ 1700 hours. Applications can either be printed online or picked up at the Fry Fire District (FFD) Administrative Office, located at: 4817 S. Apache Ave., Sierra Vista, AZ 85615.

Introduction: This is a full-time, 40 hour per week position with the Fry Fire District. Annual salary range is from \$46,100.28 to \$68,110.80. Benefits include comprehensive medical / dental insurance, paid time off (PTO), life insurance, educational assistance, uniform allowance, and a 401(K) plan.

Job Overview: The Fire Apparatus Technician will report to the Fleet Services Supervisor and perform maintenance and repairs on automotive and heavy equipment in order to ensure reliable delivery of emergency services.

Ideal Candidate: The ideal candidate will have experience in automotive and heavy equipment service work including oil, fuel, hydraulic, cooling and battery system servicing, lubrication, and tire repair and replacement. In addition, the ideal candidate will have experience with tools, equipment, materials and methods employed in the diagnosis, servicing, and repair of automotive and heavy equipment, along with working knowledge of modern procedures and methods of automotive repair and maintenance including diesel engines. The candidate MUST have the ability to work independently, communicate effectively, and work collaboratively with other FFD personnel and members of the public. In addition to the minimum requirements listed in the attached job description, it is preferred that the candidate should have or be able to obtain a commercial driver's license and Emergency Vehicle Technician certifications.

Application Procedure: Interested applicants must submit a completed application form no later than May 5, 2017 @ 1700 hours to:

Fry Fire District, 4817 S. Apache Ave., Sierra Vista, AZ 85615

Applications received after the deadline will not be considered.

Those applicants whose qualifications are deemed best suited for the position will be contacted for an oral interview and basic skill assessment. Applicants will be subject to post-offer, pre-employment drug screening and a criminal background review. Post-hire probationary period is one (1) year.

FRY FIRE DISTRICT

Fire Apparatus Technician

Nature of Work

The position is under the direction of the Fleet Services Supervisor. This position is responsible for maintaining, repairing, or rebuilding the District's fleet vehicles, small, motorized equipment and electrical communications equipment.

Example of Work Performed

Performs diagnosis of problems, repairs and maintains a variety of gas and diesel powered firefighting vehicles and equipment. Performs preventive maintenance functions, repairs electronic equipment (sirens and radios). Orders repair and maintenance-related parts and supplies required for work. Operates fueling, lubricating, tire changing and related service tools and equipment. Reports mechanical and operating defects in vehicles and equipment to the Fleet Services Supervisor for appropriate direction. Completes reports and maintains records pertaining to maintenance activities. Performs minor adjustments and repairs to emergency response vehicles and fire apparatus in a shop facility and at remote sites on occasion. Assists with the operation of fire service vehicles. Inspects vehicles for excessive or abnormal wear on tires and parts, leaking lines and hoses, and obvious mechanical, structural, or electrical defects. Assists with the maintenance of inventory and issuance of service supplies and materials. Performs janitorial duties to provide a clean and safe work and supply area. Complies with Fry Fire District policies and procedures.

Working Conditions:

Work is performed at our service facility in Sierra Vista, Arizona, and occasionally, at various stations or remotely under emergency conditions. May be exposed to mechanical and electrical equipment, solvents and oils. Physical effort required to perform heavy manual labor in uncomfortable and dirty conditions. Overtime may be available for emergency repairs.

Knowledge, Skills and Abilities

Good Knowledge of:

- Methods, practices, materials, instruments, and tools used in the maintenance and repair of gas and diesel powered vehicles; air and hydraulic braking systems; AC and DC electrical systems; transmissions and differentials; generators, pumps; fire system interlocks; and small equipment maintenance and repair.
- Occupational safety and hazard practices and procedures and EPA disposal requirements.
- Operation of vehicles, pumps and equipment.
- Specialty Emergency Vehicle Technician qualifications and certifications will need to be obtained within three (3) years of hire.

Working skill in:

- Repair and service of major and minor mechanical, structural, and electrical fire equipment defects.
- Diagnosing and repairing gas and diesel powered vehicles, pumps, small equipment and electronic equipment using industry standard computer systems and applicable techniques.
- Proper documentation of repairs with the use of a computer to be able to utilize the District Records Management and work order system(s).

Ability to:

- Identify mechanical and operating defects.
- Recognize and report hazards.
- Perform all types of automotive and heavy equipment service work; and properly and safely use and care for service tools, equipment and materials.
- Prepare and maintain reports; add, subtract, multiply and divide whole numbers; produce written documents in the English language with clearly organized thoughts using proper sentence construction, punctuation, and grammar.
- Establish and maintain effective working relationships with other employees and the public while maintaining a positive and professional work environment.
- Communicate effectively, both orally and in writing, in the English language with employees and the public in face-to-face, one-on-one settings, in group settings, or using a telephone.
- Follow verbal and written instructions; comprehend and make inferences from written materials.
- Communicate effectively verbally and in writing.
- Function under stressful emergency situations.
- Operate service vehicles and maintain service records; maintain a small inventory of supplies and equipment.
- Work safely and courteously to promote a strong team atmosphere.

Education and Experience:

High School diploma or equivalent and five (5) years of experience in maintenance and repair of diesel and gasoline powered equipment required. ASE T-4 and Emergency Vehicle Technician (EVT) certifications strongly preferred. Fire equipment experience desired.

Note – If not EVT Certified, must be willing and able to obtain EVT Fire Apparatus Level II and Ambulance Level II within three (3) years of hire.

*The District will sponsor the initial test for each required license or certification. If employee does not successfully pass each initial test, the employee may continue to test at his/her expense up until the 12-month deadline has been reached. There is no additional compensation for attaining certifications, as they are current requirements for this position. If employee is unable to successfully complete all certifications as specified, employment will be terminated.

Other Requirements

Must have valid Arizona driver’s license by date of hire. May be required to obtain Class C CDL license with Air Brakes endorsement. Must have own mechanic’s set of hand and air tools.

Note – Vehicle specific tools and diagnostic equipment are available for use and maintained by the Fry Fire District.
