Definition:

Perform Annual Pump Testing, minor and major diagnosis and repairs to emergency fire apparatus, automobiles, trucks, construction equipment, and vehicles specific to municipal operations including work on gasoline, diesel, small engines, electrical, aerial, and hydraulic equipment. This level has received and must maintain designation as a Master ASE Certified Mechanic in Both light duty and heavy truck as well as a Master EVT Certification required by NFPA to work on emergency fire apparatus within two years of hiring.

Principal Duties:

- Perform basic and advanced drivability diagnoses of fire apparatus and support vehicles including automotive and medium trucks computerized engines, transmissions, and electrical systems.
- Inspect, diagnose, locate, estimate cost, and repair mechanical problems on all fire apparatus, support vehicles and supporting equipment. Repair and overhaul all brake systems on apparatus and supporting vehicles.
- Diagnose and repair gasoline and diesel engines, ABS systems, advance electrical and on-board computers, fuel delivery, hydraulics, air system, air conditioning, transmissions, drive lines, rear ends, suspension systems, front ends, steering, exhaust systems, fire pumps, foam system and aerial apparatus.
- Perform minor and major preventive maintenance services. Replace or repair faulty parts including wheel bearings, oil seals, shock absorbers, exhaust systems, steering mechanisms, and related parts to all fire apparatus, support vehicles and support equipment. Mount, dismount, and balance wheels and tires.
- Perform field or shop inspections of fire apparatus, supporting vehicles and supporting equipment to determine and make necessary repairs and cost estimate of repairs.
- Perform State of Colorado emission and DOT inspections.
- Perform minor and major welding fabrication of equipment, vehicles, and tools.
- Repair and install radios and light bars to emergency vehicles.
- Attend training to improve skills and knowledge for repairs, annual testing and maintenance of fire apparatus, support vehicles and support equipment.
- Establish and maintain an effective relationship with fire department and personal.
- Work with third party vendor to schedule annual aerial inspections as per NFPA guidelines.
- Work with fire department on schedule of all fire apparatus, support vehicles and support equipment for services, repairs, warranty issues, annual pump testing, aerial testing and ground ladder testing.
- Perform annual pump testing on all fire equipment with pumps as per NFPA guidelines.

- Maintain records of NFPA fire equipment tests and apparatus testing. Schedule outside work to be done on fire apparatus for repairs and warranty.
- Respond to emergency calls to and outside the city in all weather conditions and perform fire apparatus, supporting vehicle and supporting equipment services as needed, including after hours. Provide support for second alarm and above fires.
- Maintain all certifications and prerequisites to attain EVT Master Certification.
- Teach, mentor and share technical skills and abilities with other staff. Collaborate with other staff and supervisors to diagnose and determine repair solutions.
- Work with the police department on accident investigations.

Working Environment:

Work requires physical and visual capabilities to operate passenger vehicles, trucks, and motorized equipment to operate and/or drive all City owned vehicles and equipment. Primary work is performed in shop environment, with occasional fieldwork in all temperature and weather extremes. Environment includes exposure to dust, grease, oils, solvents, fumes and gases, and hazardous waste and materials associated with repairing trash trucks. Requires heavy lifting and carrying (50 lbs. and over); pulling, pushing, stooping, reaching with both hands; walking, standing for long periods, crawling, working on back, bending, kneeling, climbing, and climbing on ladders. Requires basic communication skills to complete daily activities and interact with co-workers and other department employees, requires constant work around moving parts and machinery, and ability to enter data on the fleet computer and database system related to repairs, maintenance, and labor. Overtime and flexible time schedules may be required to fulfill organizational needs.

Qualifications:

Any combination of education and experience equivalent to at least three to five years of progressive practical employment experience, plus technical training and advanced practical experience in the maintenance and repair of both diesel and gas powered equipment and fire apparatus. ***Special Qualifications:*** The candidate for this position must be able to meet the physical requirements necessary to do the job. Possession of a valid Colorado Commercial Driver's License with Class "A" certification, Colorado state license necessary to conduct diesel and vehicle emission control tests, and a CFC Certificate. Completion of all requirements in order to be certified as an ASE Master Mechanic in heavy truck T1 – T8 or light duty A1-A8, and continuing education and training in specialized areas such as computer controls, electronics, hydraulics, etc. Completion of HAZMAT and in-house safety training as required. All certification required by NFPA to attain Master EVT Certification within two years of hiring.

We're committed to building a team that reflects the diversity of the communities we serve. The City may consider an equivalent combination of knowledge, skills, education, and experience to meet minimum qualifications, and encourages all candidates to apply and help us achieve our goal of creating an inclusive and equitable workplace.

Selection

The selection process will include complete job description review, personal interview, investigation, criminal background check, background, physical abilities test and substance screening.
