

Fire Service Technician

Job description

Fire Truck Solutions (FTS) is seeking experienced Heavy Duty Shop Mechanics. Job duties include maintaining and repairing fire engines and ladders.

Essential Duties and Responsibilities:

- Positively represent FTS to all customers, vendors, and other contacts in a respectful and professional manner.
- Examine fire apparatus and review with Service Manager the nature and extent of damage or malfunction.
- Document parts needed and description of work to be performed.
- Diagnose, inspect, and perform preventative maintenance of fire apparatus both in our shop and at customer location.

Requirements

- Basic knowledge of functions of air brake systems.
- Able to use a laptop computer and be able to read and understand parts and service manuals that are printed in English.
- Must have a current driver's license with a clear DMV record.
- Understanding of steering and suspension components.
- Experience in welding and repairing heavy equipment is a plus.
- High school diploma, GED or equivalency supplemented by special training in automotive mechanic and diesel equipment, or degree related to the core functions of this position.
- Ability to work with a wide range of tools and equipment to efficiently complete repairs and maintenance.
- Able to travel for remote mobile service when needed.

Experience Level I or Level II:

Level I:

- 2 years **automotive** or construction/agricultural equipment mechanic experience
- Considering Emergency Vehicle Technician (EVT) certification for Fire Apparatus

Level II:

- 2 years **heavy duty diesel** mechanic experience
- Possession of, or desire to obtain, EVT certification for Fire Apparatus

- Job Type: Full-time
- Pay: \$20.00 - \$42.00 per hour
