

## TELLURIDE FIRE PROTECTION DISTRICT

The Telluride Fire Protection District is seeking a qualified and motivated candidate to fill the role of **Emergency Vehicle Mechanic** (see job description). TFPD serves a permanent population of 5900 and covers 350 square miles of public and private land including four incorporated towns, critical infra structure and many small HOA neighborhoods. Telluride is a destination resort community that receives visitors from all over the world. We are the host to a world class ski area and host a variety of weekend festivals including: Telluride Film Festival, Telluride Bluegrass festival and the Telluride Blues and Brews Festival. Fire and EMS service is provided via a combination department responding from 4 stations strategically located.

This position requires a person with a strong working knowledge of automotive and fire apparatus mechanics along with working knowledge of the hazards and safety precautions common to fire apparatus.

A comprehensive selection process will interview and review the candidate that best fits our community and organization observing a balance of experience, education, and training.

### **Requirements:**

Automotive Service Excellence (ASE) certification or similar

Valid Colorado State driver's license upon appointment

May be required to obtain additional specific skills training and technical certifications

### **Preferred:**
